

A deep space photograph showing a vast field of stars against a black background. A prominent feature is a diagonal band of stars, primarily orange and blue, stretching from the lower left towards the upper right. These stars appear brighter and more distinct than the surrounding field of smaller, fainter stars. The overall composition suggests a celestial map or a specific astronomical observation.

To all my good friends...

A woman with long, wet, blonde hair is sitting on a sandy beach, viewed from behind. She is looking over her shoulder towards the left. The background shows a calm sea and a hazy, purple-tinged sky at sunset or sunrise. The scene is reflected in the wet sand.
