

RRS and D3 Head light removal.

Im crap at making documents and spelling and my iPhone camera is S**T,
So bare with me lol.

Ok here goes for the fun bit .

**Grab here and
pull hard
outwards to
release from panel**

Clipped in here

**Using a blunt knife screw driver pen knife anything lol
lift the clips up about 20mm**

Pull out the head light and turn upside down.

Twist the cap off like opening Beer :)

**Change the bulb 😊
Regards Pete**
